# **Characteristics**

**ZOOM SOLID** is a highly concentrated potassium humate. It is a plant stimulant of the highest quality and improves soil conditions.

**ZOOM SOLID** can be applied to agricultural, horticultural and gardening plants by soil, and seed application.

**ZOOM SOLID** can be used to be alone or mixed with most fertilizers. As product solid granular form, it can be transported easily.

**ZOOM SOLID** is able to enhance the efficacy of fertilizers and reduces input costs.

# APPLICATION AND DOSAGE

#### CROP **RECOMENDED APPLICATION** OBJECTIVE Soil application Soil conditioning, root growth stimulation, 6-8 kg/ha divided into several doses (1-2 kg/ha) during the Cereals, potatoes, increasing of soil fertility and fertilizer season and at the time of fertilzer application legumes (Spinklers and utilisation pivot system) 8-10 kg/ha divided into several doses Soil conditioning, root growth, increasing of Fruit trees (Apple, soil fertility and fertilizer utilisation (1-2 kg/ha) citrus) In all crops Soil conditioning, increasing of soil fertility 6-8 kg/ha divided into several doses (1-2 kg/ha) and fertilizer utilisation during the season Soil conditioning, root growth, increasing of soil fertility and fertilizer utilisation 6-8 kg/ha divided into several doses (1-2 kg/ha) Open field vegetable Soil conditioning, root growth, stimulation, Ornamental plants and

increasing of soil fertility and fertilizer tree nursery, turf grass, landscaping (in general) utilisation Growth stimulant, and increases foliar fertilizer utilisation

8-10 kg/ha divided into several doses (1-2 kg/ha) or 1kg/m<sup>3</sup> during the preparation of substrates

150-300g/100Lwater every two weeks during the season

### Foliar application

Vegetables in

greenhouses

Growth stimulant, and increases foliar fertilizer penetration. Application: 150-300 g/1000L water every two weeks during the season

### Seed treatment

Stimulation of seed germination and root growth. Application: 1kg/100kg seeds
